

INTRO

Brand Finder makes it easy for consumers to find the stores, bars, and restaurants where they can purchase your products. Search results are powered by your actual purchasing accounts and refreshed daily for the most up to date list of accounts likely to have that specific product.

FEATURES

Search by location on a map embedded directly into your website.

Filter to specific brands, package types, on- or off-premise businesses, and more.

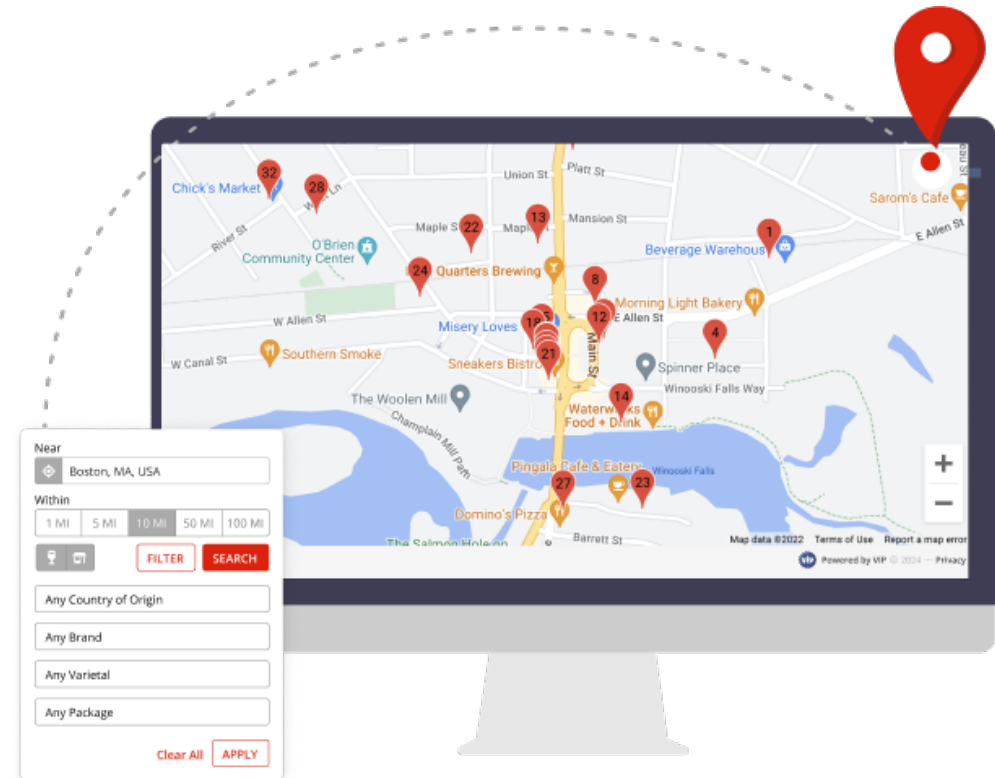

Automatically refreshes purchasing accounts every night for the most accurate search results.

Customizable to your branding standards.

SEARCH ANALYTICS

- **Filter search result analytics** by Year/Month, State, County, Zip code, Brand, Business type (On/Off Premise) and more!
- Identify markets where people are actively searching for your products, but don't yet have distribution.

Customize your brand finder to match your website and brand personality. You take care of the design, we'll take care of the data.
